

ENVIRONMENTAL POLICY STATEMENT

- All present and future operations of **EXPRESS ENGINEERING GROUP** will, as a minimum, comply with relevant environmental legislation and standards to prevent pollution.
- We will strive to develop manufacturing processes with minimum environmental impact, particularly the disposal and recycling of “swarf”/waste metals and machine oils.
- We will reduce the amount of waste we create, and we will minimise our use of materials, use materials longer where practicable and always investigate recycling opportunities for used materials.
- We will educate, train, and motivate our employees to carry out their tasks in an environmentally responsible manner.
- We will periodically conduct environmental audits in order to continually improve our environmental performance and perform environmental assessments when a process is changed.
- The Chief Operating Officer and his team will have the responsibility for the environmental impact of the company’s operations and the continual development of the company’s commitment to protect the environment.
- Objectives and targets, form a key part of Express Engineering’s Express Fabrications Environmental Management System, they are reviewed for suitability, along with this Environmental Policy, at Environmental Management Review meetings, which are held at least annually.
- We will invite opinions and feedback on our methods and goals from inside and outside the company. Copies of this Environmental Policy are available to the public via the company’s website - www.express-engineering.co.uk.
